

Low-income farmers may be affected by the change made in the optional method of reporting income for social security purposes. The gross income amount on which the optional method of reporting is based has been changed from \$1,800 to \$2,400. Harry N. Scott, social security district manager in Dothan announced this week.

This means that the amount of net earnings from self-employment that can be reported by farmers under the optional method as much as \$1,600 for taxable years ending after 1965. Previously, a farmer could report no more than \$1,200 a year under this provision.

Under the new provision, if a farmer's gross income is over \$2,400 and his net farm earnings are \$1,000 or less during a taxable year, he may report his net earnings for social security purposes as \$1,000, or he may report his actual net; if his net earnings are over \$1,000, he must report his actual net earnings.

If a farmer has gross income of \$2,400 or less in a year, he may count either his actual net earnings or two-thirds of his gross farm income as his net earnings from farming.

If a farmer receiving benefits reports under the new optional method and

FACTS YOU SHOULD KNOW ABOUT VITAMINS. They are not a food and have no caloric values. But they are absolutely essential to healthy living. They are the "spark" which causes the body to properly perform some of its functions.

CAN YOU GET ENOUGH IN YOUR FOOD? Yes, you can — IF — and it's a big IF because you must eat an ample variety of different foods, which include sufficient fruits and vegetables. This is not easy, for cooking destroys some of the vitamins and the older fruits and vegetables become more of their vitamin content as they age.

MODERN LIVING LOWERS VITAMIN INTAKE. A recent medical survey disclosed that large numbers of teenagers had poor health because of vitamin loss from eating improper food. Too many were getting hurried snacks instead of complete meals. Many adults do the same. A MULTIVITAMIN PREVENTS A DEFICIENCY. You can insure against a lack of any of the necessary vitamins by taking a reliable, high quality vitamin capsule or preparation daily.

PHYSICIANS FREQUENTLY PRESCRIBE LARGE DOSES of a particular vitamin to help certain ailments. But no one should take such treatments without a physician's advice. For example, large amounts of Vitamin D can cause harm.

WE CAN ANSWER VITAMIN QUESTIONS. Pharmacists are taught their uses, proper dosage and how to protect their potency. We have dependable vitamins which can prevent any harmful vitamin deficiency. Now is a good time to start taking them before winter weather lowers your resistance to sickness.

Pulpwood Briefs

Pulpwood is harvested in 90 percent of the counties in the 12 Southern states. In 1964, 28 Southern counties harvested more than 100,000 cords of pulpwood apiece.

Pulp and paper companies and pulpwood suppliers in the South planted more than 200 million tree seedlings during the 1964-65 season. The total included 25 million seedlings given by the industry to farmers and other individual landowners.

As of the end of 1964, the South had 82 pulp and paper mills in operation, with a total daily capacity of some 56,000 tons.

Conservation Director Claude D. Kelley announced today that Alabama hunters will be permitted 40 days of hunting this season which is the same as last year.

Kelley said the hunting season on ducks and coots will run from December 1 to January 9, which is the latest date allowed by the U. S. Fish and Wildlife Service for the 14 states in the Mississippi Flyway.

The duck bag limit will be four a day and eight in possession. However, the daily bag limit of ducks, other than mergansers, may not include more of the following species than: (a) 2 wood ducks; (b) 2 canvasbacks; (c) mallards; and (d) pintails.

The limits on American red-breasted, and hooded mergansers, in the aggregate of these species, are 5 daily and 10 in possession, of which not more than 1 daily and 2 in possession may be hooded mergansers. The daily bag limit on coots is 10 and the possession limit is 20.

WIND CREEK PARK

Vacations and week-end trips with camping gear are becoming more popular these days and so is Wind Creek Park near Alexander City. If any one spot in Alabama has everything to make the camper feel "at home" it is this vacation paradise.

Here are just a few of the reasons thousands of Alabamians and out-of-

state travelers stop there each month. There are 1,000 campsites with electricity, deep-well running water and toilet facilities; 500 barbecue pits and tables, miles of white sandy beaches on crystal clear Lake Martin and at least a dozen more modern conveniences including a sight-seeing boat and six miles of horseback riding trails.

Being right on the shores of a 50,000-acre lake you can expect all types of water sports including boating, fishing, skiing and swimming.

In 1965 Wind Creek Park was the site of the National Campers and Hikers Association Convention and more than a thousand persons stayed there for the event.

For the historically minded camper Wind Creek Park is located at the spot where the Wind Tribe of the Creek Indians lived. It is also the place where Chief Menawa of the Creek Nation was found wounded after the battle at Horseshoe Bend and was nursed back to health.

The day before, forces of Andrew Jackson had fought a bitter battle which broke the backs and the

ALL MEDICINES MUST BE POTENTLY FRESH

You know what happens to a delicious custard if you permit it to be exposed for some time in a warm place. It can turn into a dangerous killer. Therefore you refrigerate custards to prevent this. Many medicines must be protected against a similar change or they too can be harmful.

Pharmacists are taught at college how to store all medicines and to date those which lose potency after a certain time. Some of them must be kept away from heat or light. Others we keep refrigerated till ready for use. When dispensing such medicines which are subject to change we will always inform you if there are any precautions you must observe.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we commend yours?

Three-In-One Study Club Hears Guest Speaker

Mrs. Celia English Brown spoke to the Three-In-One Study Club Thursday night on "My Impressions of England and Her People". Mrs. Brown spent three years in England while her husband was serving a military assignment there. Mrs. Brown centered her talk around her impressions of England's people and some of the practical aspects of English life. She stated that she and her family were shown warm hospitality as well as much courtesy.

The meeting was held in the home of Mrs. Bryan Taylor. Mrs. Mayo Prescott served as co-hostess. Mrs. Taylor presided and gave the devotional. She used scriptures related to patience and gave several quotations on patience from well-known writers. Mrs. Prescott read minutes of the last meeting of the club year. Mrs. Price Ringo gave the treasurer's report, and Mrs. Will Kendrick read the club rules concerning fines for failure to carry out the club's by-laws. Miss Gladys Clark read the program.

Philip Ward, Jr., and her sister, Mrs. Lee Austin, in Browning, Montana. They also visited Waterford Park in Canada, and Spears Hospital in Denver, Colorado. Spears is the largest chiropractic hospital in the world. On their return trip, they visited friends in Oklahoma City, Oklahoma.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest force on earth for the building of character and good citizenship. It is a house of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: 1. For his own sake. 2. For his children's sake. 3. For the sake of his community and nation. 4. For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

BIG DAY

It's an odd feeling when children start to school. As a parent, you are tremendously proud and excited. But you are also a little afraid.

For the first time, your Johnnie and Susie are going off on their own. Suddenly, they look smaller than they have since they were babies, and you have an irresistible impulse to run after them. But it's too late for that—so you let them go, with a smile on your lips and a fervent prayer in your heart.

Later, when the first rush of emotion passes and reason returns, you laugh at yourself. For the truth is that Johnnie and Susie are exactly where they've always been; in God's care, whether at home, in school, at play, or in church. And, grateful to the Church for this truth, you remind yourself that next Sunday you'll remember to thank God for that care... a little more than usual.

Freedom To Serve Makes America A Strong Nation

One of the truly great freedoms that made this nation strong is one you don't hear much about. It's the "freedom to serve" in a community, according to the National Newspaper Public Information Committee which has released the following statement:

From the hard pioneers to the present, free people have developed a tradition of helping one another on a voluntary basis. They like the warmth that comes from being personally involved instead of sitting back and saying, "Let the government do it. I pay my taxes."

Just as the schoolhouse is the symbol of America's tradition of a free public education for all and the courthouse the symbol of the right to a fair trial

for all, so the newspaper office, either in the town or city, is the symbol of the "freedom to serve."

A stranger going into any community in the nation will find all newspaper editors and publishers alike in one major respect. They all take tremendous pride in their communities. The first thing they want to do is show you the town. They will point out the new library, the well-lighted streets, or the shining new hospital they editorialized about for so many years before they got it. Pick up any newspaper in America, any day of the week, and somewhere in opinion, or have become the slaves of government. They don't feel responsible to serve their readers.

And the communities in which their readers live. Can you imagine an American community without a newspaper to run pictures, editorials and news stories about the United Fund Drive, or the Boy Scout Campaign, or the Heart Fund? Or a community without a newspaper to urge you to get out and vote or that shames you into cleaning up your property?

Take a new look at your own local newspaper and see how much space it devotes day in and day out, week in and week out, to making your town a better place in which to live. You may not agree with all of the things the paper wants done, but you'll have to agree that the paper is not sitting back and waiting for the government to do it. This is characteristic of big and small newspapers alike.

That's the way it should be. That's the way this "freedom to serve" works in America.

LEGAL AD RATES RAISED - Governor George C. Wallace signs into law a bill raising the rates paid by the State for legislative advertising. Looking on are (left to right) Bonnie Hand, Lafayette, chairman of the Alabama Press Association Legislative Committee; Ralph Callahan, Anniston, president of APA; Bob Bryan, Cullman; Hervey Charest, Tallapoosa; and J. C. Henderson, Alexander City.

Personals

Mr. and Mrs. Hollie Boutwell, Mr. and Mrs. Ray Hurd, Mr. and Mrs. Perney Flowers, and Mr. Henry Peacock attended the funeral of Mrs. Boutwell's nephew, Allen Tucker, in Union Springs, last Friday.

Recent visitors of Mr. and Mrs. Ray Hurd and Mr. and Mrs. Hollie Boutwell were Reverend and Mrs. W.A.D. Hill, of Atmore; Reverend T. H. Spence, of Montgomery; and Mr. and Mrs. Billy Hill, of Louisiana.

Governor Signs Bill Aiding Weekly Papers

Legal advertising rates were raised for the second time in 60 years by a bill passed by the recent session of the Alabama legislature and signed into law by Governor George C. Wallace.

Ralph Callahan, Anniston, president of the Alabama Press Association, stressed that only legal advertising rates are affected. The legislature does not have control over the establishment of any other advertising rates.

"We are deeply appreciative that the Governor and the legislature recognized the need for this increase. It is not a burden to anyone, and is especially helpful to the small weekly papers in Alabama," Callahan said.

The act raised the rates for legal ads from two cents per word for the first insertion to three cents, and from one and one-half cents per word for each subsequent insertion to two cents.

"This is a fair bill, helping mainly the small, hometown papers of Alabama. I am pleased to sign it into law," Governor Wallace said.

Present when Governor Wallace signed the bill were Bonnie Hand, Lafayette, chairman of the Alabama Press Association's legislative committee; Ralph Callahan; Hervey Charest, Tallapoosa; Bob Bryan, Cullman; and J. C. Henderson, Alexander City.

The act raised the rates for legal ads from two cents per word for the first insertion to three cents, and from one and one-half cents per word for each subsequent insertion to two cents.

Elba General Hospital Patients

Persons admitted to The Elba General Hospital during the period of August 31 through September 6 were the following:

John M. Farris, Jan Jones, Ronnie Vaughan, Annie Plant, Etta Crocker, Earnestine Kelley, Andy Flowers, Buford Flowers, Rebecca Gwyn Davis, Beverly Lynn Davis, Wayne Phillips, Edna Moore, W. B. Ward, Dorothy Ann King, Jeffie Gatlin, Robert Taylor, L. E. Hornsby, Ella Mae Jones, Clara Maddox, Betty S. Morrow, China Walker, Lucille Jacobs, Linda Skipper, Melvin T. Gales, William H. Scarborough, J. M. Pierce, Sr., James J. Jackson, William B. Sutley, Wayland Bryan, Velma Coleman.

Persons discharged during the same period of time were the following:

John M. Farris, Jan Jones, Elva Devane, Johnny Bryan, Etta Crocker, Stephen Meyers, Pennie Devane, Andy Flowers, Virginia Barnes, Curtis Wilkins, Judy Eldridge, Johnny Parrish, Annie Will Parrish, Claudine Parker, Annie Ruth Plant, Earnestine Kelley, Buford Flowers, Rebecca Gwyn Davis, Jeffie Gatlin, L. D. Cooper, Brenda Sutley, Robert Taylor, Dorothy Ann King, Edna Moore, Blumy Reeves, Charlie McDonald, Alberta Taylor, Lizzie Tyson, Betty Sasser.

The 4-H idea began to materialize in the late 1890's when rural school superintendents encouraged students to plant corn, tend a garden, sew and cook.

Bacon is available at various prices. End pieces and slabs are the least expensive forms of bacon.

Home-cooked cereals—rice, oats and wheat—are the least expensive cereals.

PIG IN A SACK

When a person says that he will not buy a "pig in a sack," or "pig in a poke," as it is sometimes expressed, he means that he will not buy anything without first seeing what it is.

The expression grew out of a trick practiced long ago at English fairs. These fairs were primarily trade events to which merchants and farmers brought their goods to sell.

Farmers carried their pigs to the fair in sacks or pokes, and when a sale was made the sack containing the pig was handed over.

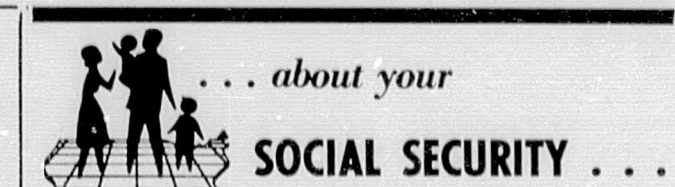

Sometimes an unscrupulous man would put a cat in a sack and some gullible person, without checking the contents of the bag, would buy it, thinking he was getting a pig.

Anyone who fell for this trick bought a "pig in a sack."

... about your SOCIAL SECURITY ...

Students who receive social security benefits as the children of retired, disabled, or deceased workers can continue to get the payments after age 18 if they are attending school full time. Harry N. Scott, social security district manager in Dothan, announced this week.

Under this new provision, contained in the 1965 amendments to the social security law, students can continue to receive monthly benefits until they reach 22 or complete their education.

Mr. Scott continued: "Students whose benefits were stopped when they reached 18 and who are continuing their education as full-time students will have to file a new application in order to have their payments started again. Benefit payments can be made retroactive to January 1965."

Young adults who take a full-time vocational course, as well as those going to high school or college full-time, are covered by this provision, Mr. Scott stated.

In addition to benefits during the school year, payment can continue during a vacation period of up to 4 continuous months, if the student will be returning to school afterwards.

Anyone having questions about this new provision should write or phone the Dothan Social Security Office, located 404 South Outers Street. The telephone number is 794-3161.

Freedom To Serve Makes America A Strong Nation

One of the truly great freedoms that made this nation strong is one you don't hear much about. It's the "freedom to serve" in a community, according to the National Newspaper Public Information Committee which has released the following statement:

From the hard pioneer days to the present, free people have developed a tradition of helping one another on a voluntary basis. They like the warmth that comes from being personally involved instead of sitting back and saying, "Let the government do it. I pay my taxes."

Just as the schoolhouse is the symbol of America's tradition of a free public education for all and the courthouse the symbol of the right to a fair trial

for all, so the newspaper office, either in the smallest country town or the largest metropolitan city, is the symbol of this "freedom to serve."

A stranger going into any community in the nation will find all newspaper editors and publishers alike in one major respect. They all take tremendous pride in their communities. The first thing they want to do is show you the town. They will point out the new library, the well-lighted streets, or the shining new hospital they editorialized about for so many years before they got it.

Pick up any newspaper in America, any day of the week, and somewhere in that paper you'll find an editorial, a column, a feature story, a picture or

news story plugging for something for the town or city.

Or plugging for the young people, or the old people, or the neglected or forgotten.

Public service by newspapers is now an institution in America.

There's nothing else like it in the world because nowhere else in the world do newspapers take to heart this "freedom to serve" and nowhere else do they practice daily and weekly their role of community public service.

In most nations newspapers are political party voices, or concern themselves only with news and opinion, or have become the slaves of government. They don't feel responsible to serve their readers in America.

Hidden Beauty

For days and for weeks without stopping. We searched for an overstuffed chair. Through store after store we kept shopping. Unending our patience and care.

We knew just the one that we wanted. All others we'd sadly decline. Till at last, overjoyed, we succeeded—The fabric and color were fine.

The chair that we bought was a liver. At thought of it now, though, I wince. For we slipped on at once a slip cover. And I've not had a look at it since.

Legal advertising rates were raised for the second time in 60 years by a bill passed by the recent session of the Alabama Legislature and signed into law by Governor George C. Wallace.

Ralph Callahan, Anniston, president of the Alabama Press Association, stressed that only legal advertising rates are affected. The legislature does not have control over the establishment of any other advertising rates.

We are deeply appreciative that the Governor and the legislature recognized the need for this increase. It is not a burden to anyone, and is especially helpful to the small weekly papers in Alabama, Callahan said.

The act raised the rates for legal ads from two cents

per word for the first insertion to three cents, and from one and one-half cents per word for each subsequent insertion to two cents.

"This is a fair bill, helping mainly the small, hometown papers of Alabama. I am pleased to sign it into law," Governor Wallace said.

Present when Governor Wallace signed the bill were Bonnie Hand, Lafayette, chairman of the Alabama Press Association's legislative committee; Ralph Callahan, Herve Charest, Tallahassee; Bob Bryan, Cullman; and J. C. Henderson, Alexander City.

Stories Behind Words

PIG IN A SACK

When a person says that he will not buy a "pig in a sack," or "pig in a poke" as it is sometimes expressed, he means that he will not buy anything without first seeing what it is.

The expression grew out of a trick practiced long ago at English fairs. These fairs were primarily trade events to which merchants and farmers brought their goods to sell.

Farmers carried their pigs to the fair in sacks or pokes, and when a sale was made the sack containing the pig was handed over.

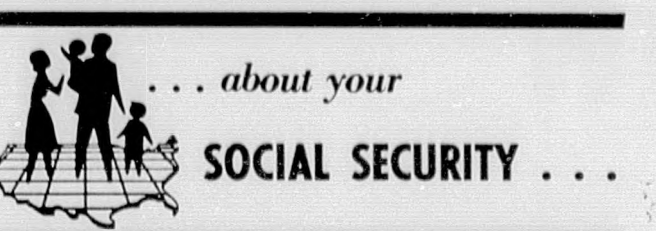

Sometimes an unscrupulous man would put a cat in a sack and some gullible person, without checking the contents of the bag, would buy it, thinking he was getting a pig.

Anyone who fell for this trick bought a "pig in a sack."

Students who receive social security benefits as the children of retired, disabled, or deceased workers can continue to get the payments after age 18 if they are attending school full time, Harry N. Scott, social security district manager in Dothan, announced this week.

Under this new provision, contained in the 1965 amendments to the social security law, students can continue to receive monthly benefits until they reach 22 or complete their education, whichever is earlier.

Students whose benefits were stopped when they reached 18 and who are continuing their education at full-time students will have to file a new application with the Social Security Administration to have their payments started again. Benefit payments can be made retroactive to January 1965.

Young adults who take a full-time vocational course, as well as those going to high school or college full-time, are covered by this provision, Mr. Scott stated.

In addition to benefits during the school year, payment can continue during a vacation period of up to 4 continuous months, if the student will be returning to school afterwards.

Anyone having questions about this new provision should write or phone the Dothan Social Security Office, located 404 South Oates Street. The telephone number is 794-3161.

4-H CLUB WEEK

The week of September 25-October 2 has been designated National 4-H Club Week in America. The theme for this year's observance is Learning for Living. Over 1,000 4-H Club members in Coffee County will be observing this special week. 4-H is the largest organization for boys and girls in the United States and has trained millions of young boys and girls in farm and home projects, in citizenship, leadership, and also in other areas. We are planning some special newspaper articles during this week. We hope you will be watching for them.

LIME

A letter from Dr. Fred R. Robertson, Director of the Auburn University Extension Service, was received last week outlining plans for lime promotion week which will be held September 13-18. We have a lot of materials and information calling attention to the need for lime on Coffee County soils. A liming program as needed in Coffee County can add millions to the farm income in the years ahead.

YIELDS

I have seen several folks in the past few days in discussing peanut yields. One grower told me that he made 1200 pounds per acre but he did this on a poor stand. Others are selling more than a ton per acre on their entire allotment. Unfortunately, some of our people are dropping below 1,000 pounds per acre even where they have good stands. However, I am not pleased that ever before with the response Coffee County farmers have given to the more peanuts per acre campaign that we started some years back. If we can get the right kind of weather, I am hoping that this will be a record-breaking year.

FARMS The value per acre of Alabama farmland at \$128 increased 10 percent from March, 1960 to March, 1965, according to the Economic Research Service of the U. S. Department of Agriculture. Alabama tied with Georgia in leading the 48 states in value per acre increase based on the index of average value per acre (1957-59 base).

I am sure that Coffee County farmland has increased even more than the state-wide average because we are growing a good average of high value crops.

POULTRY Jim Hubbard, our Auburn University Extension Poultryman, visited several broiler egg producers and one or two broiler producers with Mr. Speed a few days ago. In Coffee County we have a rapidly growing broiler industry.

CLOTHES DRIVERS ARE WORK SAVERS The purchase of a clothes dryer can be one of the wisest decisions made by the homemaker who does her own laundry. Clothes dryers do save work. The dryer is not only a time-saver, but an energy and money saver as well. Win-

ter weather is no longer a laundry problem to the homemaker who owns a dryer. Besides overcoming the inconvenience of having to plan washday around the weather, minutes saved in "hanging time" are considerable. When line-drying clothes, the average homemaker walks 40 miles a year and goes up and down stairs, reaching, stretching and bending. Twenty eight-hour days a year can be saved by using a dryer. And, a clothes dryer results in less housework. Lint is removed rather than carried in with the clothes or blown back into the house from out-of-doors. Ironing time can also be cut in half if the dryer is properly

AZALEAS We have had several calls this week in the office on damage to azalea leaves. The insect doing this damage is the azalea caterpillar. It is a colorful, hairy, red to black caterpillar with rows of white yellow spots along the sides. It will completely defoliate azalea plants. For control, use 5% DDT dust.

SAFETY Hundreds of Coffee County farmers and their families and helpers are plans for lime promotion week which will be held September 13-18. We have a lot of materials and information calling attention to the need for lime on Coffee County soils. A liming program as needed in Coffee County can add millions to the farm income in the years ahead.

COFFEE NEWS & CHAT BY SARA HUTCHISON

CLEANING STEAM IRONS With school clothes to iron once again, your steam iron may need some attention. If it spits and sputters, it's sending out a distress signal for help. Here's what you can do to clean out your iron.

Add cold water to the iron when it is cold, turn the temperature to high and place the iron face down on a cake rack to steam out. Next, fill with a half water and half vinegar solution after the iron has cooled. Set the dial on high and again let the iron steam out on the cake rack.

Finally, for the rinse step, refill the cool iron with cold water, heat it and steam it out. This step will rinse out the vinegar and should not be omitted.

Though this cleaning takes only a couple of hours, proper care of your iron can lengthen the time between cleanings.

Using tap water is one of the chief reasons steam irons stop up. Minerals in the water clog the vents and even leave deposits on the sole of the iron.

VOLUME 68 ELBA, ALABAMA, THURSDAY, SEPTEMBER 16, 1965 NUMBER 10

Lions Club Plea To All Citizens

The Elba Lions Club passed a resolution on Tuesday night asking the public to please help keep the streets and highways free of litter. The resolution recognizes that the streets and highways and adjoining areas are prime examples of engineering and architectural workmanship and beauty and are subject to much abuse but they can be made much nicer by individuals keeping their litter off the streets of towns and highways in Coffee County.

"It's up to you-do your part," says Olen Bailey, Lions president, speaking for the Elba Lions Club to the citizens of Elba and Coffee County.

Those who have no eye for beauty should remember that there is a \$100 fine if convicted of throwing rubbish on the highways.

Quaterback Club Holds Meeting

The Elba Quaterback Club held its regular meeting Tuesday night at 7:15 in the recreation building at the pool. The members discussed increasing the membership, advance tickets to the football games, transportation home for the players, and the supper to be served next Tuesday night.

This supper will be held at the recreation center and all members and prospective members are urged to attend. Time for the supper is 7:15.

Tigers Start Season With Big Score

The Elba Tigers made a packed stadium of supporters happy Friday night when they swamped the Brantley Bulldogs by a score of 34 to 7.

The score does not tell the whole story of Elba's strength though, because Coach Wendall Hart didn't play his starting players with an intercepted pass from the 15 yard line and followed a practice seen in the jamboree game two weeks ago which was to play as many of the boys Martin.

The Elba Tigers displayed some superb downfield blocking Friday night that allowed the runner to get on to score when, with one of the plays, finds this one just right.

GOOD FIT: A new desk chair received at Enterprise Junior College Thursday looks even nicer than a pretty girl. June Cocker of Elba, first student to sit one of the chairs, finds this one just right.

Chamber Of Commerce To Meet

The Elba Chamber of Commerce will hold their regular meeting Tuesday night, September 21, at 7 o'clock. The place is again Paul's Cafe. All members are urged to attend.

Barber Urges Vets To Vote

Blue Barber, of Troy, Department Commander, American Legion, this week urged the Commanders of Alabama's 220 Legion Posts to initiate a program of voter registration among their membership and their families. Said Commander Barber, "Encouragement of active participation in the affairs of government through serious and objective use of the ballot has long been the policy of the American Legion. This is not a partisan effort, but rather an exercise in good citizenship."

He further urged that all Alabama War Veterans from which the Legion secures its membership, make every effort to assure the registration of members of their families who are eligible to vote.

Barber made it clear in his message to the Legionnaires that the Legion does not endorse any political party, group, or candidate at any time.

HUDSON RECEIVES BA AT TROY
John Franklin Hudson, son of Mrs. Mildred Hudson, who resides on River-view Drive in Elba, received his A. degree in math and science from Troy State College on August 13 and is now teaching math at Wicksburg Senior High School near Dothan.

John Frank graduated from Elba High School in 1957.

Health Officials To Hear Talk On Leprosy

Health department personnel from Coffee County attending a meeting on Leprosy at Blue Lake are the Health Officer, nurse and secretaries.

James McCullough, Sr., training officer at the Public Health Service Hospital, Carville, Louisiana, will speak on "Existing Attitudes About Leprosy in the United States."

Carville is located on the east bank of the Mississippi, 75 miles northwest of New Orleans, and 25 miles south of Baton Rouge. The Public Health Service Hospital is the only leprosy sanatorium in the continental United States. When a diagnosis of leprosy has been established, voluntary admission of patients is by the request of a state health officer. The government provides complete medical care, full maintenance and clothing.

Emphasis is placed on the total rehabilitation of patients. Efforts are made to return them to their communities with increased capabilities.

It Pays To Use Lime On Your Farm

Many Coffee County farmers need lots of lime on their land. This fact is revealed by soil samples sent by farmers to the Auburn University soil testing laboratory. According to Tom Casaday, County Extension Chairman, there are several reasons for applying lime. Plants need calcium and magnesium as plant nutrients. Some soils are extremely acid and lime must be added to destroy the acid and condition the soil for plant growth.

Farmers have often been disappointed with pasture growth and other crops on their farms. Lack of lime may have been the reason.

Remember, there's only one sure way to find out if your soil needs lime. Have your soil tested and apply lime as recommended. Clay loam soil may require three tons of lime per acre to increase the pH from 5.0 to 6.5. But about one and one-half tons are needed for a sandy loam soil. Also, it takes more lime for soils high in organic matter.

PP&K Skills To Pay Off For Young Boys

Elba area boys from 8 through 13 can pit their football skills against thousands of other boys throughout the nation in the fifth annual Putt, Pass & Kick competition which will culminate with a trip to Washington, D.C. and to an appearance at the National Football League Play-Off Bowl game for the top 12 winners.

Elba boys can register any time before October 8th for the competition to be held Saturday, October 9th. Registration is at Dis-mukes Ford, in Enterprise.

SALES ADVICE OFFERED BY ETV ON MONDAYS
Salesmen and saleswomen will be offered free advice about new selling methods, approaches and formulas on the Monday 7 P.M. TV series, "Professional Salesman" over Channel 2. Following the salesmanship course outline which will be conducted this fall at the University of Alabama, Birmingham Extension Center, James Comer, the Hammond, Donald Laidlaw, Roy Lockhardt, Ernest Jordan, Robert Mangus, Royce Collinsworth, Insurance Executive of Birmingham, and Stewart Welsh.

TV series Chairman Jesse Peavear, Jr., announces the 13 week Monday series will originate in the Birmingham Area ETV studio to be broadcast over the Alabama ETV network.

City Council Holds Public Hearing Monday

The Elba City Council met Monday in a called meeting with the main order of business being the public hearing on the rezoning of the "clay pit" on Brunson Hill from residential to commercial.

There were a number of residents of Brunson Hill present protesting this move for reasons they stated at the meeting. Those protesting were Dr. Kimmy, Doctor Cooper, Robert Cannon, Doctor Crook, K. E. Mace Cook, Mrs. Robert Cannon and Mrs. Bancroft Cooper.

Joseph McWhorter, the person requesting the rezoning for construction of an automobile dealership building, was not present nor did he have a representative present. Mr. Fox Brunson, the present owner, was present and stated that he had explained the situation to Mr. McWhorter at first and had no intentions of forcing this rezoning on anyone as he did not need the money from this sale to feed himself or his wife.

After hearing the arguments against this rezoning and with no one present to argue for it, the council voted to leave the property residential.

Elba Game Chosen As Game Of Week

The Luerne-Elba game slated here for Friday night has been selected as the "Game of the Week" by The Montgomery Advertiser. The Advertiser will send a staff writer and a staff photographer to cover the game.

They discussed the fact that several businesses haven't paid their city licenses for 1965 and instructed the police department to enforce this immediately.

The council voted to hire Howard Bohannon as police chief.

With no other business to be acted upon the meeting was adjourned.

Linda Folsom Wins Talent Competition

New Brockton's own Linda Folsom, daughter of Mr. and Mrs. Wade Folsom, won first place in the talent competition and placed in the top ten semifinals in the Miss America competition last week.

Linda gave the same superb presentation of the song "Caro Nome from Rigoletto that won her the title of Miss Alabama and the hearts of all in Coffee County and she sang it well. This gave her another \$1000 scholarship to her credit.

Any flattering words that we might add at this point would be repetitious of previous weeks' news articles, so let's end now by saying WELL DONE LINDA!

Grimes Awarded Scholarship

Robert L. Grimes, 20, of Elba, has been awarded an American Legion Auxiliary scholarship to the University of Alabama for the 1965-66 academic year.

Son of Mr. and Mrs. Haywood Grimes, he is a 1963 graduate of Elba High School where he was president of the Beta Club, a class officer, Boy's State representative, and member of the high school band.

The first hired and already at work in William H. Bowlin, former chief at New Brockton, Bowlin at one time worked for Security Engineers at Dorsey Trailers. He will be on day-time duty at present.

Two New Policemen In Elba

Mayor L. P. Mullins and Police Chief I. F. Dunaway announce the hiring of two new policemen this week.

The first hired and already at work in William H. Bowlin, former chief at New Brockton, Bowlin at one time worked for Security Engineers at Dorsey Trailers. He will be on day-time duty at present.

Hired Monday night and reporting to work Tuesday night was Howard Bohannon who is presently residing between Kinross and Lowery. Bohannon plans to move to Elba soon. He is a former policeman at Sam-

Football Tickets On Sale Early

Advance tickets for the home football games will be on sale Friday between the hours of 8 and 5. They will be sold at Whitman Drugs, O.K. Rubber, and Wise Cleaners.

The tickets are at regular price and this service is to prevent spectators from having to stand in a long line to get tickets at the gate.

Another man the City Council had accepted application from refused to move to Elba which was one of the conditions of working as an Elba policeman.
